

handE

Products

Centrecity Medical's therapeutically designed handE

products use Visco-Elastic Foam, which is the technology developed by NASA. This amazing substance responds to your body, and your natural body heat to form a cocoon of even support, gently redistributing your body weight and relieving pressure points. This brings an unparalleled level of comfort for a more restful sleep.

This unique temperature-sensitive foam actually conforms to the shape of your body, gently redistributing your body weight and relieving pressure points. You receive more support for your spine and other joints. When you move or arise, the Visco Foam slowly returns to its original shape. It's also naturally hypoallergenic, antibacterial, and anti-fungal without the addition of chemical products.

All covers are removable and washable

Centrecity Medical is a member of the Centrecity Group of Companies. Founded in 1986 as a Real Estate Company, the Centrecity Group of Companies has expanded to include companies with core competencies in the Automotive, Import/Export and Medical fields. Our goal is to provide our customers with both quality products and an exceptional level of customer service.

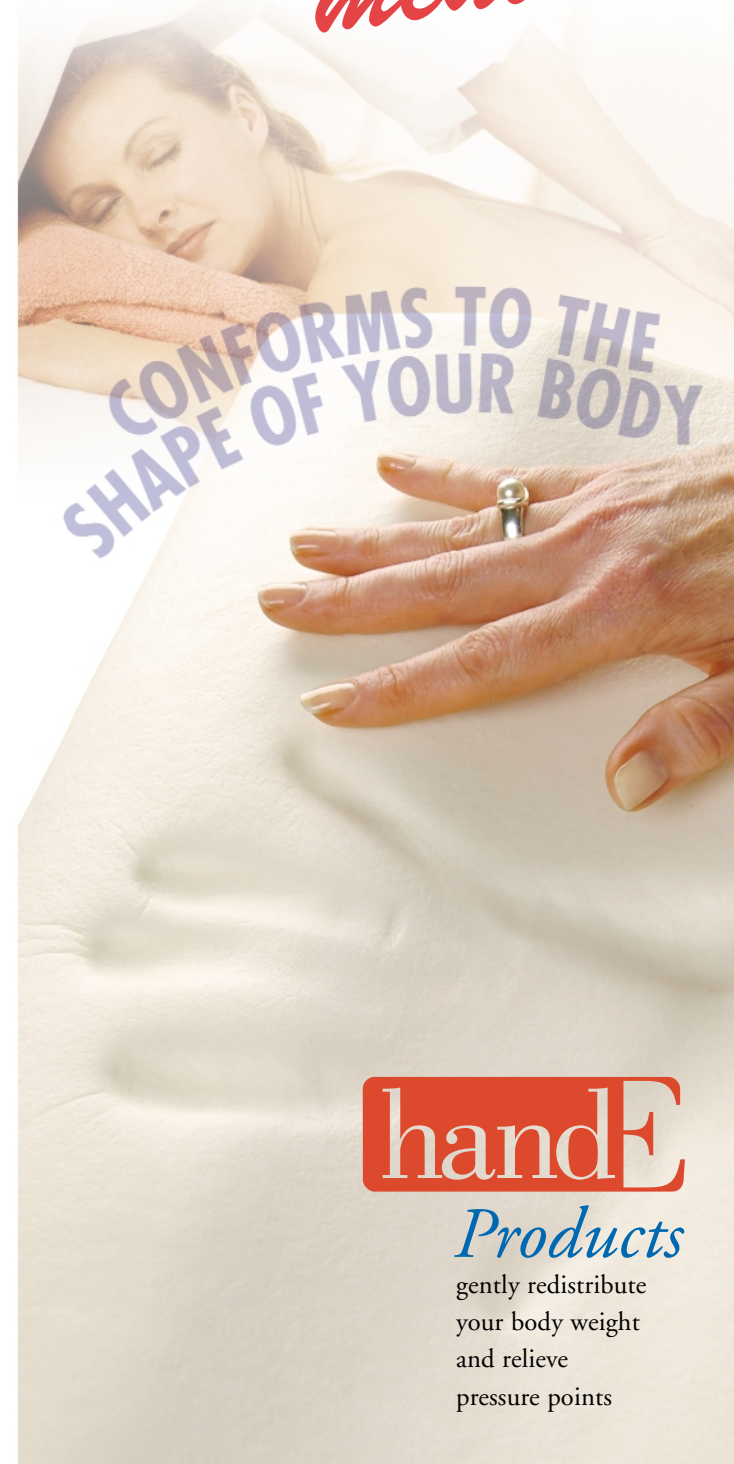

2 year limited warranty on manufacturer's defects.

gently redistribute
your body weight
and relieve
pressure points

Centrecity Medical's **handE**

Pillow

The handE Pillow provides you with a restful and comfortable sleep. The handE pillow is designed with a cervical roll allowing comfortable supported sleep for your shoulder, upper arm and neck when sleeping on your side. The handE Pillow's therapeutic shape and contour properties gently redistribute your body weight relieving pressure points allowing your spine to remain aligned, essential for a restful and comfortable sleep. Manufactured with moulded Visco-Elastic Foam that was developed by NASA, the handE Pillow responds to your body's natural heat providing even support.

Mattress Topper

The 3" thick handE Mattress Topper's construction from Visco-Elastic Foam responds to your body's natural heat forming a cocoon of even support absorbing pressure. Gently moulding to your body shape, it redistributes your weight reducing the pressure on muscles and joints. The handE Mattress Topper allows your shoulders and hips to comfortably sink into it while your lower back is supported. Your spine is correctly aligned and weight is evenly distributed through our contouring top, eliminating painful pressure points and increasing circulation. Awake feeling invigorated and refreshed.

Neck and Knee Support

Finally, you can sleep as well when traveling as you do at home. The handE Neck and Knee Support provides the support you need while sitting or lying down, and its compact size makes it easy to carry with you.

The contoured cervical design of the handE Necking and Knee Support, made from Moulded Visco Foam, is ultra-soft to ensure exceptional comfort. A plush terry cover is included, and is machine washable for easy care. Your handE Necking and Knee Support will be the most comfortable little pillow you'll ever own. Compact and light weight, the handE Neck and Knee Support is perfect to take anywhere.

Wheelchair and Seat Cushion

Our handE seat cushion is designed to ensure even support by gently moulding to your unique shape each and every time. This ensures a comfortable and pressure free seating experience. The handE seat cushion uses Visco-Elastic Foam and is patently for equalizing weight distribution by redistributing your weight in aiding and preventing decubitus ulcers or "bedsores". The handE seat cushion redistributes your weight from pressure points.

It's breathable and non-irritating in skin contact, aiding in keeping moisture and perspiration away from the body.

The handE Seat Cushion's removable cover is incontinence resistant and washable. Comes with attached carry handle.
